How Do I Swap on Trust Wallet: +1-917-383-3978 Complete Step-by-Step Guide

Trust Wallet is one of the most popular decentralized wallets in the crypto space, known for its user-friendly interface and powerful features, including the ability to **swap cryptocurrencies** directly from your mobile device. Whether you're new to crypto or looking to make the most of DeFi, understanding how to **swap on Trust Wallet** is essential.

In this comprehensive guide, we'll explore everything from **how to swap tokens in Trust Wallet** to issues like **swap not working**, **fees**, **cross-chain swaps**, and more. If you face any issues during the process, feel free to contact Trust Wallet customer support at **+1-917-383-3978**.

What Is a Swap in Trust Wallet?

Swapping on Trust Wallet means exchanging one cryptocurrency for another without using a centralized exchange. This is done via **decentralized exchanges (DEXs)** integrated within Trust Wallet, such as **PancakeSwap** or **Uniswap**, depending on the blockchain you're using (BEP20 or ERC20).

The **swap function in Trust Wallet** is available under the **DEX tab**, and supports token-to-token swaps on supported blockchains.

Can You Swap Coins on Trust Wallet?

Yes, you can swap supported tokens on Trust Wallet. The process involves selecting the coin you want to swap from and the coin you want to swap to, then confirming the transaction.

If you're unsure or face errors during this process, don't hesitate to call **+1-917-383-3978** for real-time assistance.

How to Swap Coins on Trust Wallet: Step-by-Step

Here's how to **swap crypto on Trust Wallet** effectively:

Step 1: Launch Trust Wallet

Open your Trust Wallet app and ensure it's updated to the latest version.

Step 2: Ensure Sufficient Balance

Before you swap, ensure you have:

- The token you want to swap.

- Enough blockchain-native token (BNB for BEP20, ETH for ERC20) to cover **Trust Wallet swap fees**.

Step 3: Go to "DEX" or "Swap"

Tap on the **"DEX"** tab at the bottom. This opens the **Swap interface**.

Step 4: Select Tokens

- Under **"You Pay"**, choose the token you want to send.

- Under **"You Get"**, choose the token you want to receive.

Step 5: Confirm the Swap

Review the **swap fees**, token amounts, and slippage. Then tap **"Swap"** and approve the transaction.

How Long Does Swap Take on Trust Wallet?

The **swap time** can vary based on:

- Blockchain network congestion

- Slippage tolerance

- Pair liquidity

On average, it takes **less than 5 minutes**, but in some cases, it may take longer. If your **swap on Trust Wallet is not showing** or pending for too long, contact support at **+1-917-383-3978**.

Trust Wallet Swap Fees Explained

Swap fees typically include:

- **Network (gas) fees** depending on the blockchain (e.g., ETH, BNB).

- **DEX platform fees**, such as PancakeSwap's 0.25% trading fee.

Always check estimated fees before confirming the swap.

Cross-Chain Swap Trust Wallet: Is It Possible?

Trust Wallet **does not currently support direct cross-chain swaps** (e.g., swapping ETH on Ethereum to BNB on Binance Smart Chain). For such swaps, use **bridges** or centralized exchanges.

If you're unsure how to **swap tokens across blockchains**, seek guidance at **+1-917-383-3978**.

How to Swap Specific Tokens on Trust Wallet

1. How to Swap BEP20 Tokens on Trust Wallet

Make sure:

- The tokens are on **Binance Smart Chain**.

- You have enough **BNB** for gas.

Go to DEX, select BEP20 tokens, and follow the swap steps.

2. How to Swap ERC20 Tokens on Trust Wallet

ERC20 tokens require **ETH** for gas. Swapping happens via Uniswap.

3. How to Swap LUNC on Trust Wallet

Use the Terra network if supported. If not, LUNC swaps might require centralized exchanges.

4. How to Swap Safemoon on Trust Wallet

If you're still holding **Safemoon V1**, upgrade to **V2** using Safemoon Swap, then use PancakeSwap in Trust Wallet.

5. How to Swap Tron on Trust Wallet

TRON tokens are not supported natively in the swap tab. Use external DEX like JustSwap or a bridge.

Troubleshooting Swap Issues on Trust Wallet

1. Trust Wallet Swap Not Working

- Check network fees.

- Ensure the token has liquidity.

- Update the app.

- Clear cache.

Still stuck? Call **+1-917-383-3978**.

2. Trust Wallet Swap Not Showing

This may happen due to:

- Delayed transaction confirmation.

- Incorrect token pairs.

- Blockchain congestion.

3. Trust Wallet Approve Swap

Before some swaps, you may see an "Approve" button. This is a **one-time token permission** allowing the DEX to access your tokens.

How to Swap Shiba Inu, Web3 Coin, or MNEB on Trust Wallet

To **swap coins like SHIB, MNEB, or Web3**, follow the same steps as above but ensure:

- The correct blockchain is selected.

- Sufficient gas tokens are available.

- You use the correct contract address.

Trust Wallet PancakeSwap Integration

For BEP20 tokens, **Trust Wallet integrates with PancakeSwap** directly via the DEX tab.

Steps:

1. Tap DEX > Swap > BEP20 Token.

2. Choose PancakeSwap pair.

3. Swap and confirm.

Use **+1-917-383-3978** for swap support if PancakeSwap fails.

Trust Wallet Swap to Smart Chain

To convert tokens to BNB Smart Chain:

- Use PancakeSwap.

- Select the proper token and choose **BNB (Smart Chain)** as the target.

- Approve and complete the transaction.

Trust Wallet Swap Not Supported or Delayed

Some tokens might not be available for swapping due to:

- No liquidity pool

- Unsupported token standard

- Delisted token

In such cases, consider converting the token on an external DEX or using a CEX platform. Reach out at **+1-917-383-3978** for expert advice.

What Is Carlive Chain Swap on Trust Wallet?

Carlive Chain (IOV) token swaps may require manual contract entry. Ensure:

- You enter the **correct contract address**.

- There is an available liquidity pair on PancakeSwap or similar DEX.

Tips for Smooth Swapping on Trust Wallet

- Always keep gas fees ready in native blockchain currency.

- Double-check contract addresses from CoinMarketCap or CoinGecko.

- Adjust **slippage tolerance** for volatile tokens.

- Use **WalletConnect** if needed to access advanced DEXs.

How to Cash Out on Trust Wallet App

While you cannot directly withdraw to fiat, here's how you **cash out on Trust Wallet**:

1. **Swap token to BNB or ETH.**

2. **Send to a CEX like Binance or Coinbase.**

3. **Withdraw to your bank account.**

Need help? Contact **+1-917-383-3978**.

Conclusion

Swapping on Trust Wallet is a quick and easy process, empowering users to convert tokens right from their phones. From BEP20 to ERC20, PancakeSwap to Uniswap, Trust Wallet supports a range of **swap functionalities**. Whether you're wondering **how to swap Safemoon to V2**, or why **Trust Wallet swap is not working**, this guide provides the answers.

If you're still facing issues or have token-specific problems, don't hesitate to reach out at **+1-917-383-3978** — available to assist you with every step of your Trust Wallet journey.
