Methods: How to Cash Out from Trust Wallet

Here are the most effective and secure ways to **cash out of Trust Wallet**:

1. Using Binance or a Centralized Exchange

One of the simplest ways to **cash out crypto from Trust Wallet** is to send your crypto to an exchange like Binance or Coinbase, then sell for fiat.

Steps:

1. **Open Trust Wallet** and locate the crypto you want to cash out.
2. Click “Send” and enter your **Binance wallet address**.
3. Complete the transaction and wait for confirmation.
4. Once received on Binance, go to "Sell Crypto to Fiat."
5. Withdraw fiat directly to your **bank account**.

This method is ideal for those asking, "**How do I cash out from Trust Wallet to bank account?**"

2. Use Trust Wallet’s Built-in Swap & Ramp

Trust Wallet now includes **Ramp Network** integration. This allows some users to swap crypto directly for fiat.

Note: Availability depends on your region.

Steps:

1. Tap on the crypto token in your wallet.
2. Select “Sell” if the **Ramp** option is available.
3. Enter your details and **bank account** information.
4. Confirm and complete the sale.

The **Trust Wallet Ramp sell** method is limited to supported currencies like ETH, BNB, and USDT.

3. Peer-to-Peer (P2P) Method

This is a popular option when **Ramp or centralized exchanges aren’t available**.

How to Do It:

1. Post your crypto on a P2P platform like **Paxful or LocalBitcoins**.
2. Wait for a buyer who wants to pay in your local currency.
3. Send your crypto from **Trust Wallet** once you receive payment.

Ensure you use platforms with escrow protection when using **P2P methods to cash out from Trust Wallet**.

4. Using Crypto Debit Cards

Some platforms like **Crypto.com** or **Binance Card** allow you to link your wallet and **spend crypto like fiat**.

Steps:

1. Sign up for a crypto debit card service.
2. Transfer funds from Trust Wallet to your card wallet.
3. Withdraw cash from an ATM or use it like a regular card.
